Getting started

Texturelabs_Pixalate.atn
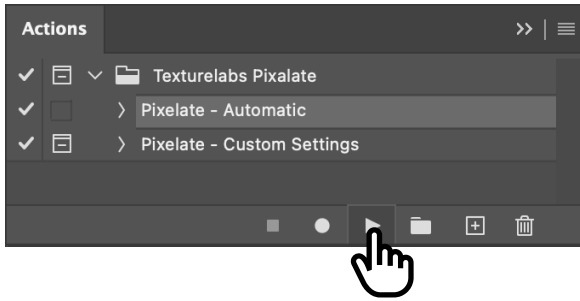

Texturelabs_PixelatePatterns.pat
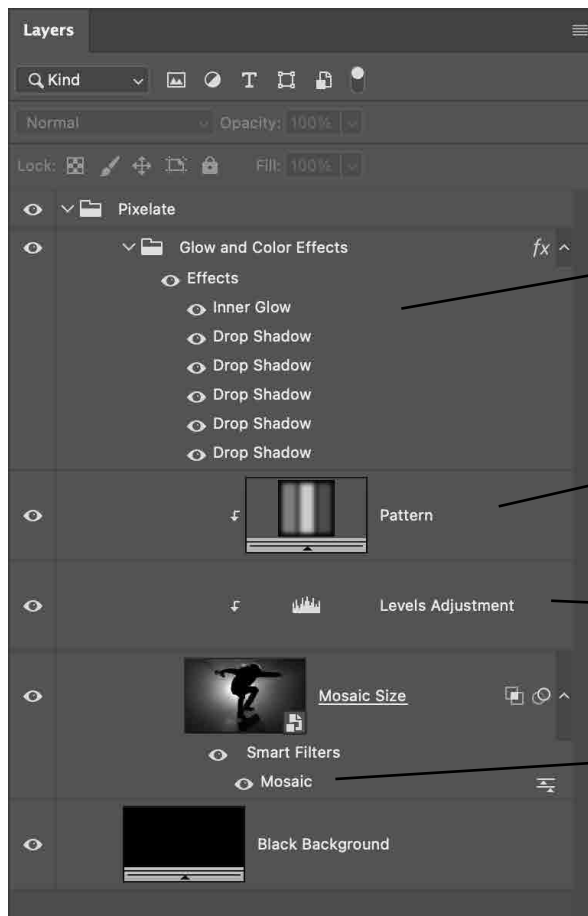

Drag the action and pattern files
onto your Photoshopp app icon to install

Pixelate - Automatic action

Optional: Customize the result

Experiment with the Layer Styles Effects
to change colors or glow intensity

Select from the 16 included patterns
Adjust the scale of the pattern

Adjust the overall brightness levels

The Mosaic size should be
changed to match the PATTERN SCALE
(if the Pattern Scale is 50%, the Mosaic Size should be 50px)

Pixelate - Custom Settings action

Select a pixel pattern and scale

Match the Mosaic size to the pattern scale

Scale: 50 %

Cell Size: 50 square

Adjust the brightness levels

Select a color palette by pressing STOP or CONTINUE

OPTIONAL:
Continue to select a different color style
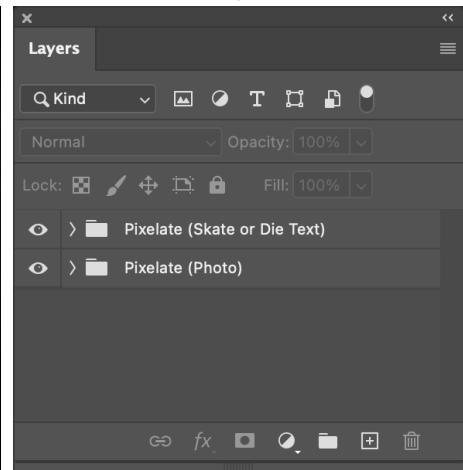

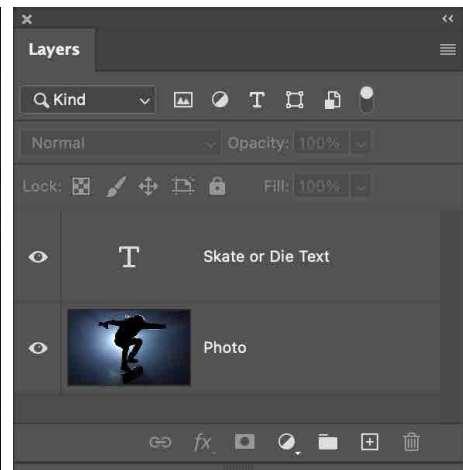

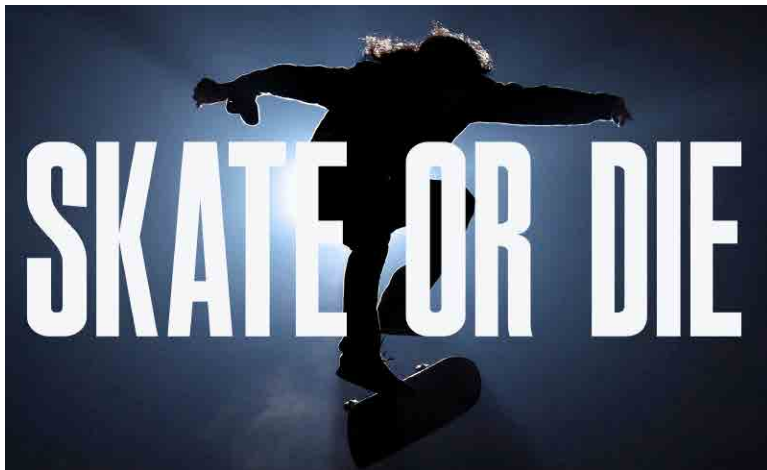

STOP: Purple Glow

CONTINUE: White Glow
RGB Glow
None (Black and White)

(or STOP and UNDO to go back)

Tips

Apply the effect to multiple layers with different settings for a layered effect.

Try creating mutliple copies of the same pixelated layer with different sizes. Stack them up for a complex effect.
